## Keynotes

- Theme is " Autumn Colors"
  - In Lapland colors of foliage are most beautiful in September, estimated D-day is in mid September
  - According to the Theme our proposal for the visit is week 36, 37 or 38.
- Distances between targets and accommodation in Lapland are quite long (shopping distance 50 km is common, commuting 100 km is normal..). Visiting several targets means a lot of sitting in a vehicle.
  - Arctic hills and wilderness are worth of sightseeing– even in a vehicle.
